ON ANOTHER NOTE.

Did you know that this fellow Cliff Boyer MAAAC No. 116 of SJMFC did the impossible task of training our Zone Director way back in the early 70ish, and Cliff is still flying.

Don't forget this is your way to inform the Zone about what's going on in your neck of the woods, so please let me know at chansen@nbnet.nb.ca

A big thank you goes out to Sandy from all of us for taking on the task of creating the NL when I was attending a more personal matter, now that it is behind me, we are off to another page of my life, and thank you for all the support that me and my girls got at that difficult time.

A new long awaited Hobby Store here in New Brunswick, owned and operated by Patrick Last. The location is in Salisbury, more on page 2

Welcome 2016 from Alberta.....Midnight..... Grandad and Grandson Tristan flying in the new year with old and new.....rubber power and Malinium Falcon. Here we go again Jim, more on page4.

The gang at Kentville was out flying Dec 8, 2015 with 0 degrees @ Windsor Field sent in by Jeremy. more on page 3.

ZONE B NEWSLETTER

NEW HOBBYSHOP IN NEW BRUNSWICK.

Just a little note to say that this is not a commercial or a paid notice, this information is only to keep our membership in the loop of what we have in our Zone. If you would like me to give your Hobby related Business a little write-up with pictures, just send me a note and I'll put it here in our Zone News Letter.

Here is a little information regarding a new long awaited Hobby Store here in New Brunswick, owned and operated by Patrick Last. The location is in Salisbury, and if you come from the Trans-Canada Highway, take the exit by the Silver Fox Big-Stop Irving, and follow the sign down to Salisbury, at the end of the road turn right on to Main Street and the shop is on the left about 300 feet, or across from Home Hardware Lumber Yard.

Here is Patrick at the business end.

The address is 3134 Main Street, Salisbury, N.B. E4J2L6. E-Mail Address is: freedom@makeitlast.ca
The Web address is: www.freedomhobbies.ca
Phone No; 506-215-3733.

Patrick has a well-stocked shop and if you don't see it, ask as he has lots of containers with stock that he has no room for on the wall. He have a big selection of R/C

Planes, Helies, Cars, Trucks, Boats and accessories by all Major Brands, so if you are in the need for any R/C related items, check out his web site or better take a drive and check out his store as he also have used items for sale there, you will not be disappointed.

As a personal note I have said many times before, if we don't support our local hobby shops, they just can't stay in business without us, so think about it next time you go to that website

across the ocean. I would also like to wish Patrick and his staff all the best and hope you will have a strong support from our members. Patrick also have PC related supply at his store as that is also one of his specialties, Patrick is also a Member of MAAC.

KENTVILLE BOYS DOING A FROZEN FINGER FLY ON DECEMBER 8, 2015.

Don MacPhee with his fleet. That Bonanza is very scale in the air with the gear up.

Trevor Fennell getting the Deuce ready to go.

And here he is taxiing out the Bonanza for a flight.

And here flying his 250 racing quad.

Mark Everett piloting his new profile Hots.

Jeremy Dann and his Electrified Grant Beaver Nova - a great flyer.

ZONE B NEWSLETTER

A LITTLE BIT FROM AROUND THE ZONE.

Here is Sandy's latest.

Been doing a bit of indoor at Kentville. Greg Hatt gave me a dolphin, and I finished that over the last while. Haven't had a chance to fly it yet, 130gms ready to fly, all Depron and Mylar...I need new glasses now and my nerves are shot.

Welcome 2016 from Alberta at Midnight, Grandad Jim and Grandson Tristan flying in the New Year with old and new, Rubber Power and Mallinium Falcon.

SJMFC President and Panel Chairman of the 2016 Saint John Model Flying Club First Flight Panel Commission Mr. A. Colwell sent this reply; Dear Mr. Lloyd, thank you for your submission to be noted as the first to fly. The 2016

Saint John Model Flying Club First Flight Panel Commission convened to adjudicate your claim, and has decided that your claim is being disputed. The panel kindly recommends that in the coming years you continue to make wildly hypothetical claims as the panel has little to do at this time of the year, except recover from New Year's indulgences.

happiness comes from within.

that's why it feels good to fart.

Saint John Model Flying Club held their annual Christmas chuck glider event this year (2015), and in a down to the last flight there was Jim and Cato flying, good thing David wasn't there, and Cato took the bragging right with only a split second better than Jim, so Jim, it's back to the drawing board for you again. A great time was had by all, something your club should try as the trimming does it all.

Chris with his converted to electric Pulse 125 at SJMFC Fun-Fly last fall.

Steve cooking up a storm all supplied free from the club.

And Bob our secretary with his Mixmaster.

ANOTHER PAGE FROM AROUND THE ZONE.

Here is Jim's New creation for the Lawrencetown Slope Fly for 2016, and like a likeable fellow he is, he won't let anybody forget when they have a less likeable event, you turn will come my old friend I have a long memory.

Here is Rick's build tread for his P-51, have a look <http://crffc.org/forums/showing-off-your-current-project/136-mustang-p-51-build-thread/497>

You have to register to get access to their Forum, if you don't, here is a few pictures for you to see what Rick is doing.

It's been over a year now and I've not done nothing on the MK III. Need to change that...want her ready for the 2016 flying season.

Started some work fitting the main retracts & doors; also started messing with the cockpit area.

TOP GUN FREE FLIGHT PROJECTS.

As it was mentioned a little while ago in Model Airplane News, the 2016 Top Gun event in Lakeland, FL will be including a serious free flight rubber power airplane class. Of course these lightweight stick and tissue airplanes will have to be scale and the competition is open to all event participants. **Carl Layden** is working on his entry with

the Avro Lancaster. Scratch Design, 1/25 scale 48" span, current weight 4.5oz targeting AUW 9oz. Wing loading will be about 4.4 oz/ft². Wings & stab are plug in to make travel easier. This time it's all in CAD too. Finish will be traditional dope & tissue.

St John's Radio Control Flyers club meet at Harbour Grace Field.

SANCTIONED AND OR PLANNED EVENTS IN THE ZONE.

There is no events planned for this month as of today, but the The Wings of Wellington is once again pleased to be hosting the VALLEY GATHERING on April 2, 2016. The fee is \$25. The event will include a swap shop and

day of indoor fly-
ing. We will have
a mass launch at
1pm. Doors open
at 9am flying from
9:30 am to 4:00
pm. Canteen fa-
cilities on site.
The facility, The

Kentville Sports Center (indoor soccer arena) is the ideal spot to spread your electric wings or rotors.

The location is at Kentville Sports Center, and the address is Park Street, Kentville, N.S.

MAAC'S ZONE B NEWSLETTER.

FROM YOUR ZONE DIRECTOR.

Hi everybody, here we are again with Cato back in the editor spot, and a big thank you to Sandy for filling in for Cato. And as usually he is looking for some input from all of you, just send him a picture, a few words of something that you would like to see here or what ever you have going on in your club, it be a project, or a gathering in your favored spot, like your shed or indoor facility. On another note, the new MAAC website is finally coming together, and if there is something that you don't like or would like to change, just send me an e-mail and I'll see what can be done. Any other items you would like to clarify, just contact me. The events is filling up fast so if your club is listing an event, try not to be on collision course with another club in the same general area as there is only so many modellers to go around, and if you don't travel to other events, don't complain if nobody shows up. We are going to try and publish as much as we can here in the News Letter, but you have to do your part too. Fly safe and we will see you around.
